Dear Parents & Guardians,

Welcome to Grand Canyon Youth! We are so pleased to have your child joining us for a life-changing adventure.

Grand Canyon Youth (GCY) is a nonprofit organization based in Flagstaff that provides outdoor experiences to young people ages 10-19. We believe that all young people can benefit from time spent in natural places. GCY serves schools, groups, and youth from across the country.

Our programs are educational in nature: in addition to exploring the outdoors, your child's journey with us will include hands-on science, art-making, time for reflection, teamwork, and much more.

For over 25 years, GCY has run hundreds of expeditions with thousands of participants from across the country! Our office staff will guide you and your child every step of the way as you prepare for their adventure. Thank you for choosing to send your child on a Grand Canyon Youth expedition. Nature and wilderness have the power to transform lives, and we are honored to share this opportunity with your child.

Please do not hesitate to contact us if you have questions as you prepare your child for their GCY expedition.

Sincerely,

Emma Wharton, MSW
GCY Executive Director

In service to our mission and values, GCY would like to acknowledge that this expedition visits the ancestral homelands of the Nuciu (Ute), Pueblos, Diné (Navajo), Hopitutskwa (Hopi), Nuwuvi (Southern Paiute), Havasu Baaja (Havasupai), Kvav-Kapai (Hualapai), Pipa Aha Macav (Mojave), and Nuwuwu (Chemehuevi) peoples, past and present. We recognize with gratitude the people who have stewarded these lands since time immemorial and the vibrant Native communities who make their home here today.

What sets Grand Canyon Youth apart?

GCY provides some of the only access to the rivers and canyons of the Southwest dedicated to youth programming. We are committed to serving youth from a variety of backgrounds, so anyone who is interested has the chance to participate. Additionally, by completing GCY's Pre-Trip Requirements - community service hours, youth earnings, and an educational component - participants gain a strong sense of ownership over their program. GCY supports each expedition financially by offsetting over half of the trip price with money from donors, grants, and other fundraising efforts. All of this makes GCY stand apart, and provide unique, educational, high-quality expeditions.

About the Partners in Science Expedition

This expedition was developed in collaboration with the Grand Canyon Monitoring and Research Center (GCMRC), whose goals are "to develop monitoring and research programs, and related scientific activities, that evaluate short and long-term impacts of the Glen Canyon Dam on the biological, cultural, and physical resources of the Colorado River Ecosystem."

This is not just a rafting trip, but a chance to learn from, be mentored by, and collect citizen-science data with real, working scientists! These projects are a great way to learn firsthand the complexities of protecting and managing a place like the Grand Canyon. To learn more, watch the short video "What You Take Away" (<https://gcyouth.org/stories-photos/>).

Travel Planning

Youth come from all over to participate in our Partners in Science expeditions! If traveling from outside of Flagstaff, you are responsible for your own travel to and from Grand Canyon Youth, including any overnight arrangements needed before or after the expedition. For information about flying, shuttles, support GCY can offer, and other considerations, visit <https://gcyouth.org/expeditions/individual-expeditions/#packing>. Please call the GCY office if you have any questions and before booking any flights or travel arrangements.

Frequently Asked Questions

What are we going to do out there?

Being in nature means taking a break from the hustle of everyday life. You will spend your days sharing meals, playing games, hiking to incredible vistas or cultural sites, learning about the place, and having a lot of fun! Everyone works together: setting up camp, doing science projects, cooking dinner, and washing dishes. Come ready to work & learn!

Who is coming with me?

Your group will include youth from across the country – sometimes from across the world! Each expedition has a Trip Coordinator, an adult leader in charge of helping you prepare and making your expedition successful! Your Trip Coordinator will communicate with you prior to the expedition and be your main group leader throughout the expedition. At the river you will meet your guide crew. Our guides have a passion for working with youth. Many GCY guides are alumni of our expeditions! You will also have one or more scientists from the USGS facilitating citizen science research projects.

How difficult will the expedition be?

It is important to be in good physical condition for this adventure. Building up endurance prior to your expedition is a good idea. You will be outside, active, and in the hot sun every day. This is part of the fun, but can be challenging. Besides rafting and hiking, plan on being involved in loading and unloading boats, packing and unpacking gear, and setting up and taking down camp.

Hiking in the desert Southwest is different from hiking anywhere else. Many hikes contain uphill sections over uneven terrain, near vertical drop-offs. It can be very hot and dry, or wet and cold. Some hikes include rock scrambling and require guide assistance. Hiking is an important aspect of the expedition; expect to hike a couple of hours each day.

On this expedition you will need to prepare to hike out of Grand Canyon via the well-maintained Bright Angel Trail, carrying a heavy pack. There are several places to stop, rest, and refill water bottles along the way and you are encouraged to go at your own pace. You will be responsible for carrying all of your personal items. The hike is steep, strenuous, and at high elevation. Think about it like climbing stairs for more than four hours with 20+lbs on your back! We highly recommend you practice hiking with a pack in the summer heat before your expedition.

What are the Pre-Trip Requirements?

You are more invested in an experience when you work to earn it yourself. To achieve this, you are required to complete three Pre-Trip Requirements:

- **Educational Component:** Learning about your destination before participating helps you connect with the place you will visit.
- **Service Component:** Doing service projects in your community helps prepare you to form a cohesive community in the wilderness.
- **Youth Earnings Component:** Earning a portion of the trip price helps you feel financially invested.

What if there is an emergency?

Most emergencies can be prevented. GCY Field Staff will give safety orientations once youth reach the destination. Everyone is encouraged to take extra care looking out for themselves and adhering to safety guidelines. GCY Field Staff are certified Wilderness First Responders, and travel with a satellite phone and first-aid materials. Field Staff and Trip Coordinators will reinforce safety guidelines throughout the trip. If there is an incident, the GCY office staff will work with guides to organize support. If you are nervous about any aspect of the expedition, please contact us for more information.

What is the weather going to be like?

The weather in the Southwest is as unpredictable as the place itself. Prepare for all kinds of weather, and to be outside all day every day. Your expedition could be hot and sunny, cold and drizzly, or both! Pack layers to help you adjust to the range of temperatures and conditions. You can check the weather prior to your expedition by searching the forecast for **Phantom Ranch, Arizona**.

Packing for Your GCY Expedition

Partners in Science - Upper Row

How to Pack

You need **one bag** for this expedition. All of your personal items should be packed into a **backpacking-style backpack**. It should be about 30 to 50 liters in volume. Pack ALL of your belongings into it. GCY will provide a waterproof “dry bag” to pack your belongings in once you get to the river. Remember that you will be carrying everything out of Grand Canyon on your back - pack as lightly as possible!

While on the river, GCY will provide a small daypack (school-style pack). You will use it for items you need to access during the day like water bottles, sunscreen, lip balm, any day-time medications, rain gear, etc. Keep in mind that things in your day pack will get wet.

Left: Your backpack with personal items will be packed into a dry bag, then rolled and buckled to ensure the contents stay dry.

Right: A sturdy 30-50 liter pack will work perfectly. Remember to pack light!

**Bags are not to scale*

GCY Will Provide...

A Personal Flotation Device (PFD) and a dry bag, small daypack, sleeping bag, sleeping pad, and ground tarp. Tents are available, but most groups will sleep out under the stars! Other gear coming along includes boats, a full kitchen, an outdoor bathroom (“groover”), all food and snacks, drinking water, first aid supplies, and a kit of games, books, and art supplies.

Borrowing from GCY

Please check with GCY before purchasing any items: we have many items available to borrow at our warehouse, including river shoes and rain gear. We know that kids grow quickly and purchasing outdoor gear can be expensive. Work with your Trip Coordinator to request items, or stop by GCY to try things on.

Do Not Bring

If you do not see an item on the Equipment List, it is because **we have intentionally left it off**. Avoid bringing heavy clothing, towels, jeans, nice shoes, or leather boots. GCY expeditions are intentionally technology-free, so please do not bring any electronics (cell phones, gaming devices, etc.). Anything you bring may get lost or ruined! Also leave behind all money, wallets, and other valuables (if traveling independently, bring enough money for your meals, a post-expedition shower, and incidental expenses). GCY will provide plenty of snacks, so **leave all food and drinks** at home as well.

Medications

Please bring TWO SETS of any prescription medications (inhalers, Epi-pens, daily medications, etc.). One set will stay with you and the other will go with your Trip Coordinator as backup. **Youth must be able to manage and administer their own medications** unless otherwise agreed or documented in a medication communication plan with collaborating organizations. GCY staff does not administer medication except in the event of specified emergencies.

GCY no longer requires COVID-19 vaccination and testing.
